

MOHIT HATZADE

Frontend Developer

Nagpur, Maharashtra, IN | +91 83900 51169 | mohithatzade629@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of professional experience building scalable, responsive web applications using React, Next.js, and TypeScript. Skilled in translating Figma designs into production-ready, reusable component libraries and integrating REST APIs. Delivered a 25% performance boost via code-splitting and lazy loading. Experienced in unit testing with Jest and React Testing Library. Deployed applications via Vercel and Netlify with CI/CD pipelines. Recognized 3× for performance, on-time delivery, and client satisfaction.

PROFESSIONAL EXPERIENCE

Frontend Developer — Valethi Technologies LLP *Dec 2021 – Present*

- Engineered 7+ production web applications across React, Next.js, and legacy PHP stacks serving real-world business workflows.
- Boosted application performance by 25% through code-splitting, lazy loading, and bundle optimization strategies.
- Translated Figma designs into reusable, responsive React components, reducing UI development time across 7+ projects.
- Integrated REST APIs delivered by backend teams, managing async data flows and error states across all 4 major projects.
- Implemented Zustand and React Context API for scalable state management across multi-role applications.
- Wrote unit and integration tests using Jest and React Testing Library, improving component reliability and regression coverage.
- Deployed and maintained applications on Vercel and Netlify, configuring GitHub Actions CI/CD pipelines for automated builds.
- Ensured cross-browser compatibility and applied accessibility (a11y) best practices, meeting WCAG guidelines across all projects.
- Collaborated in Agile sprints with backend engineers and UI/UX designers to deliver features on time and within scope.
- Received Best Performance Award of the Quarter, Spot Award for Timely Delivery, and Client Appreciation Award.

KEY PROJECTS

Monitor Easy — Website Monitoring Tool *Mar 2026 – Present*

- Built a real-time website health monitoring dashboard surfacing critical bugs, warnings, and optimization suggestions per site.
- Developed reusable React components connected to backend REST APIs, ensuring consistent UI across all monitoring views.
- Managed global UI state with Zustand, enabling reactive updates without prop drilling across deeply nested components.
- Converted Figma prototypes into responsive, pixel-perfect layouts using Tailwind CSS and TypeScript.

Tech: React, Next.js, TypeScript, Tailwind CSS, JavaScript, Zustand, REST APIs

VMMT — Database Metadata Comparison Tool *Jan 2025 – Feb 2026*

- Architected a multi-instance database comparison platform enabling line-by-line diff of dev, QA, and multi-tenant schemas.
- Built UI modules to visualize missing tables, structural differences, and row-level comparisons across environments.
- Created reusable components using React Context API for shared comparison state across deeply nested views.
- Converted Figma designs into responsive Material UI layouts using TypeScript.

Tech: *React, Next.js, TypeScript, Material UI, JavaScript, Context API, REST APIs*

Hive Connect — Role-Based E-Commerce Admin Panel *Jul 2023 – Dec 2024*

- Developed a multi-role web application (Admin / Seller / Buyer) with fine-grained access control via React Context API.
- Built admin interfaces enabling product management — add, edit, and cross-site publishing — scoped by user role.
- Converted Figma mockups into responsive Material UI components, ensuring consistent cross-device experience.

Tech: *React, Next.js, TypeScript, Material UI, JavaScript, Context API, REST APIs*

VIT Portal — IT Department Internal Tool *Jan 2022 – Present*

- Built a device and user information management system for the IT department using PHP, jQuery, and vanilla JavaScript.
- Engineered a Super Admin Configuration panel enabling dynamic theming — button, header, footer, sidebar, and text colours — stored and applied via CSS variables.
- Extended configuration panel with editable HTML zones (login, header, footer) and a custom CSS input field, giving super admins full white-label control.
- Implemented an activity log viewer for audit and compliance tracking within the admin panel.

Tech: *PHP, JavaScript, jQuery, HTML5, CSS3 (CSS variables), Responsive Design*

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, PHP

Frameworks: React, React Native, Next.js, jQuery

UI Libraries: Material UI, Tailwind CSS, React Bootstrap, Babel

State Management: Zustand, React Context API, React Hooks

Testing: Jest, React Testing Library, Unit Testing, Integration Testing

Deployment & CI/CD: Vercel, Netlify, GitHub Actions, CI/CD Pipelines

Tools: Git, REST APIs, Figma, Lazy Loading, Code Splitting

Practices: Responsive Design, Cross-browser Compatibility, Accessibility (a11y), Agile/Scrum, Figma-to-Code, Reusable Components

Analytical: Critical Thinking, Research, Analysis, Observation, Attention to Detail

Creative: Creativity, Brainstorming, Designing, Experimenting

Technical: Troubleshooting, Planning, Organization

Interpersonal: Communication, Teamwork, Leadership, Negotiation, Conflict Resolution

EDUCATION

Master of Business Administration (MBA) — Yashwantrao Chavan Maharashtra Open University

Bachelor of Arts (BA) — Yashwantrao Chavan Maharashtra Open University

Diploma in Fire Service Education — Wainganga Polytechnic & Physical Education

CERTIFICATIONS & AWARDS

Meta Frontend Developer Professional Certificate — Coursera / Meta

JavaScript Algorithms and Data Structures — freeCodeCamp

Best Performance Award of the Quarter — Valethi Technologies LLP

Spot Award for Timely Delivery — Valethi Technologies LLP

Client Appreciation Award — Valethi Technologies LLP

ADDITIONAL INFORMATION

Languages: English, Marathi, Hindi
